	Examiner Patricia L. Engle	Art Unit 3612	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-6, 8, 9-13 and 15-18 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Evans (US 2005/0017520 with an effective filing date of July 22, 2003).

Claim Rejections - 35 USC § 103

3. Claims 7, 14, and 19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Evans.

Evans discloses the component of claims 1-6, 8-13 and 15-18. Evans does not disclose that the sections are made of different materials. The Examiner takes Official Notice that it is known in the art to use multiple materials for vehicle parts and it is well known to use multiple materials in plastic and metal forming. It would have been obvious to one of ordinary skill in the art at the time of the invention to use different materials for the different component sections, since it has been held to be within the general skill of a worker in the art to use known materials on the basis of its suitability as a matter of mechanical expedient. The motivation would have been to provide the best material for the different sections which would reduce the weight of the

end component (because lighter weight could be used for one section when a heavier material is needed for another section).

Response to Amendment

4. The affidavit filed on August 22, 2005 under 37 CFR 1.131 has been considered but is ineffective to overcome the Evans et al. reference.

5. The Evans et al. reference is a U.S. patent or U.S. patent application publication of a pending or patented application that claims the rejected invention. An affidavit or declaration is inappropriate under 37 CFR 1.131(a) when the reference is claiming the same patentable invention, see MPEP § 2306. If the reference and this application are not commonly owned, the reference can only be overcome by establishing priority of invention through interference proceedings. See MPEP Chapter 2300 for information on initiating interference proceedings. If the reference and this application are commonly owned, the reference may be disqualified as prior art by an affidavit or declaration under 37 CFR 1.130. See MPEP § 718.

Response to Arguments

6. Applicant's arguments filed August 22, 2005 have been fully considered but they are not persuasive. The affidavit did not overcome the rejection. The Applicants stated that the Examiner did not discuss the Evans et al. reference in the rejection. The reason the Examiner did not discuss the Evans et al. reference was because the claims were rejected as being clearly anticipated. Evans et al. discloses and claims the same invention as the current applicants.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
